THE YUNNAN OPIUM SCANDAL.

INCIDENT IN THE MIXED COURT AT SHANGHAI.

Some interesting developments took place at the Mixed Court at Shanghai on Thursday last in the hearing of the charges in connection with the large seizures of Yunnan opium and the apprehension of men alleged to be Yunnanese delegates. The accused are Sung Si-gee, Wong Tschuan, alias Wong Tsching, Song Woo-dong, Wong Tsching, 3th Hsing-shan, and Lee Tsong-ko. The first five defendants were first charged with importing a large quantity of opium into Shanghai, contrary to law, the six defendants were then charged with being in possession of illicit opium and the sixth defendant was charged separately with concealing opium improperly imported.

Mr. Musso appeared for the prosecution on behalf of the Chinese Government, Mr. H. F. C. Master for the Chinese Customs, and both counsel prosecuted jointly on behalf of the Opium Combine. The defendants were variously represented by Messrs. Tsuray, J. C. Priest, G. H. Wright, and S. Fessenden.

Mr. Yung Chung-sun, in charge of Foreign Affairs in the Yunnan Yamen, testified that the following letter was sent by the Yunnan to the Commissioner of Customs:—

Shanghai, August 1, 1916.

DEAR SIR,—We are in receipt of a telegram despatch from Mr. Yuen Kiu-koh from Haiphong to the effect that he has been deputed as a representative by the Yunnan Governor to proceed to Peking with Mr. Chang En-so and other M.P.'s also accompanying with about more than twenty attaches; that they have to-day arrived at Haiphong from where they will board the steamer "Athos" for Shanghai arriving here on or about August 5.

They have asked us to have their luggage exempted from examination and that man be sent to greet them.

Besides sending men to the vessel to receive them on the day when the steamer arrives, we write to ask you kindly to inform the Commissioner of Customs to instruct the Customs examinee to exempt from examining their luggage as a mark of special courtesy.

Will you kindly send the exempt permit or "huachao" to this office so that we can send them to the vessel to ensure convenience, and we would also like to know whether the certificates are to be signed by the Commissioner of Customs.

Yours faithfully,

CHOW CHING-PAN (Seal).

When the party arrived at Shanghai, witness went to meet them. He gave to a tinghai in the Yamen sixty labels to be placed on the visitors' luggage. Later, after the boxes had been taken to the hotel and the police arrived, he received a telephone message to the effect that the delegates' boxes were being interfered with. He went at once to the hotel, and when he got there he found that one of the boxes was open and that it contained opium. He refused to have anything more to do with the matter. He was also present when the opium was discovered in the Yamen. There was a door between the occupied and unoccupied portions.

COMMENTS BY THE ASSESSOR. Asked by Mr. Grant Jones, how he came to fix upon 60 labels as the necessary number to supply, witness explained that he assigned three pieces of luggage to each person—a basket, a roll of bedding and a trunk.

The Assessor.—And that is how the Minister of Justice travel? That is the usual amount of luggage carried by a Chinese traveller.

The Minister of Justice actually brought seven pieces?—I don't know.

But I do know. He actually brought seven, so he must have been an extravagant man. The Yoyin's calculations were rather out there were they not?—The calculations were made by the Yoyin himself.

Do you believe in mental telepathy?—I don't know. I only carry out the instructions of the Yoyin.

Still it must have been a remarkable coincidence that the number of labels taken should correspond with the number of boxes we now know contained opium?—Yes; I find it is very wonderful.

Tang Ping-sung, an official in charge of general affairs in the Yoyin's Yamen, deposed to being in the Yamen on the afternoon of August 8 when the motor cars arrived with the boxes in them during a heavy shower. He would be unable to identify the men who came with the motor cars, because of the heavy rain, but they stated that they had brought documents from the Yunnanese officials, which they wanted to bestow in safe keeping. There were about five or six people with the boxes.

The witness then commenced to give answers which counsel found unsatisfactory and counsel then applied that the man should be ordered to give security for his subsequent appearance in court. Counsel said he had evidence to prove that he was not telling the truth.

Witness said that he telephoned to the Yoyin for instructions as to what should be done with the cases and as a result told his visitors that they could not move them in the Yamen and they took them away. They had brought them to the front door and took them away through the back. He did not see where they went. There was a connection between the ground floor of the Yamen and the unoccupied portion through a door, but that was pulled up.

Counsel informed the court that he himself and his party had passed through the door and asked witness, if he still persisted in saying that that door was nailed up. Witness adhered to his original statement, and said that he was prepared to swear to it.

Counsel had already in the meantime asked and obtained leave to treat the man as a hostile witness and towards the conclusion of his cross-examination sprung it upon the witness that he was not the man who had done either the receiving of the boxes or the telephoning or anything else and that he was impersonating the man who had.

Mr. Musso.—We shall prove that the boxes were received by a man specially appointed by the Yoyin and that this man is sent here to give an explanation.

The Witness.—It is nothing of the kind; I was always in the Yamen.

Mr. Musso.—I ask that the man be placed on security.

The Assessor.—He is outside the jurisdiction of the court.

Mr. Musso.—I charge the man with coming into court and giving false evidence.

The Assessor.—But you asked for his attendance.

Mr. Musso.—I did not ask for his personal attendance. I asked for the secretary who took the boxes in and this man has come forward and given a lot of false evidence.

The Assessor.—You asked for the attendance of the man who took the boxes in. Do you suggest that this man is sent in place of the real man—to impersonate him?

Mr. Musso.—Quite so.

Mr. Musso said further that he had evidence to contradict practically every statement the witness had made. He asked that the Magistrate should communicate with the Yoyin and request him to have the man available for the court if it wanted him again.

The Magistrate announced that he had received a letter from the Yoyin to the effect that after the witness had given his evidence he could not send back and when he was required again he would be produced.

The case was adjourned until next morning.

GERMAN PRISONERS IN ENGLAND.

RECREATION AND PAY FOR PRISONERS.

A TOUR OF INSPECTION.

BY A SPECIAL CORRESPONDENT OF "THE TIMES."

The painful revelations as to the conditions under which our fellow-countrymen are interned or imprisoned in Germany render it particularly desirable that the facts concerning our own treatment of aliens and prisoners of war should be generally known. Together with other journalists, I had an opportunity last week of visiting three internment and two prison camps. Our thanks are due to the commandants and other officers and to the officials of the Manx Government for their courtesy in showing us all that there was to be seen and their patience in answering our innumerable questions. Personally I received the impression that there was not the slightest desire to hide anything.

ALLIES IN THE ISLE OF MAN.

Knockloe Camp lies in beautiful country a few miles drive from Douglas, Isle of Man. It consists of a barbed-wire enclosure about four miles in circumference, lying in a hollow, and divided into four sub-camps comprising a total of 23 compounds, each capable of accommodating 1,000 aliens in wooden huts. The present population is over 22,000. The commandant is Lieutenant-Colonel F. W. Panzera, C.M.G., who was for many years Resident Commissioner of Bechuanaland. Each compound is similarly enclosed with wire, and is self-contained—that is to say, it possesses, in addition to the sleeping huts, recreation and work rooms, kitchen, canteen, bank, bathroom with hot and cold shower-baths, etc. Friends are so far as possible, allowed to live in the same compound.

All the bread is baked in one bakery by 18 aliens, who each receive 2½ a week, and who produce over 10,000 loaves a day. Here, as in all the camps we visited, the bread, mainly of English flour, is quite excellent. Each alien is entitled to 1½ lb. of bread a day. There is also issued daily to each compound a sack of 280 lb. of flour for cakes, etc. If any of this flour is not required the kitchen committees of the compound, when 10 sacks have accumulated, can sell it back to the Government at 2½ a sack, the money being then spent in generally improving the dietary at the compound by purchase from the canteen at wholesale prices. The system is found extremely effective in preventing waste. About 65 per cent. of the flour is not used. Each compound receives in addition a free crate of onions weekly. The rest of the dietary issued is as follows:—

Meat (fresh or frozen)	1 lb.
On	1 lb.
Meat (tinned)	1 lb.
Potatoes	1 lb.
Margarine	1 lb.
Tea or cocoa	1 lb.
Milk sugar	1 lb.
Milk (condensed)	1-20th of 1 lb. tin.
Salt	1 lb.
Pepper	1-72 oz.

Also a second vegetable twice weekly, consisting of haricot beans or rice, 1 lb.; cabbage or turnips, 2 oz.

In the dry canteen department, which has a turnover of nearly 40,000 a month, an astonishing variety of goods is for sale to aliens at very reasonable prices. Last month no fewer than 1,608,975 cigarettes alone were sold. Other sales, quoted at random, were:—Coffee, 5,860 lb.; cocoa, 444 lb.; tea, 111 lb.; fresh milk, 2,296 gallons at 1s. a gallon; damson jam, 267 dozen lb. pots; pickles, 92 dozen jars. Of Lubergut from Appenzel, a consignment of 68 lb. will sell out on the day of its arrival. Boots cost 15s.; brown-leather slippers, 6s.; cloes, 4s. 6d. The sum of 2½ a week may be drawn from the bank to be spent at the canteen. Clothing is provided free to the destitute.

LESSONS IN SPANISH.

With regard to occupation and recreation, there are vegetable gardens all about the camp, and a certain amount of voluntary paid work is done in the vicinity. But the Isle of Man, with all its other advantages, does not lend itself to alien agricultural labour, and apart from some turf-cutting, which has been done by Hungarians, stone-breaking and vegetable-growing, there does not seem to be much occupation outside. Here, as elsewhere, currency is much practised. We found a French lesson in progress; there was a certain irony in the sentence on the blackboard, "Ma sœur est arrivée." (My sister has arrived.) (Between 30 and 40 wives have settled on the island, and see their husbands at regular intervals.) Spanish is the language especially favoured in civilian camps—obviously with a view to South America after the war. The intellectual needs of the aliens are looked after by a representative of the Society of Friends.

The small theatre in each compound is a great source of pride to its managers, who give frequent performances of German and Shakespearean plays. There are tennis courts and gymnastic apparatus in this, as in other camps, and ample football fields. It is curious to note the amount of English that is spoken though it gave one a momentary shock to hear "Well played, Fred!" in unmistakable Cockney from a half-back inside the barbed wire. The orchestra of 14 professionalists is conducted by the former leader of Mr. Alfred Bock's private band.

Parties are given at intervals in the presence of the commandant. Out of perhaps 1,500,000, some 100 persons are believed to have been let through last week.

WOMEN AND PAIN.

Few men realize that about one woman in four seldom passes a day without suffering actual pain. It is a hard task to endure as much pain but would stay at home and let his work take care of itself. But there is nobody to do the work of a wife and mother.

In nearly every case her suffering takes the form of backache and pains in the side and loins, with headache, breathlessness and a general sense of uneasiness. Men do not suffer thus, and do not realize how much it means to a woman. They have a healthy appetite. A woman often cares little whether she eats or not. Her blood is so poor and that it is a cruel deal with food, and therefore the stomach does not grow hungry.

But enrich the blood with the special blood builder Dr. Williams' Pink Pills, and watch how soon appetite will return. Notice how headaches and backaches disappear, and how the tired shoulders and loins will be braced up. Dr. Williams' Pink Pills for Pale People are a marvel for women, for they impart new energy and interest in life. Dealers sell them. Also obtainable post free, \$1.50 a bottle, \$3. for 6 bottles, from Dr. Williams' Medicine Co., 56 Sootham Road, Shanghai.

PRISONERS IN AUSTRALIA.

CAMP'S "BLACK HAND."

Every prisoner in Australia has been conscripted by the Commonwealth Government into one large camp at Liverpool, New South Wales, says a Melbourne message. There are now interned upon 5,000 Austrians and Germans, including persons drawn from every class of society and representing every shade of religious opinion and culture.

The Austrians' loss of opportunity of expressing their hatred for their Allies, the Germans, and so frequent and so desperate are the hatreds and rivalries amongst the Germans that a large force has to be kept to maintain order and prevent escapes. Within the last two or three months the censorship has been relaxed to an extent which has enabled the Australian public to know of the existence of a villainous gang of black-mailing Germans—a veritable "Black Hand"—which for some time battered upon the wealthier Germans in the camp.

Revelations at inquests held upon Germans who have been shot for attempting to escape or for numerous brutalities to fellow-prisoners have thrown a lurid light upon some of the lowest types amongst the Germans. The most fanatical enemies in the way of prosecution have been practised by this "Black Hand" upon some of its hopelessly victims. But now the gang had been broken up, and its members so separated that concerted action is, to say the least, unlikely during the remainder of the war.

If anything, the past treatment of the Germans by the Government has erred on the side of leniency, at any rate down to the discovery of the "Black Hand" and its attendant murderous cruelties upon Germans who took an honest view of their obligations, while within the camp.

To-day the regulations controlling the prisoners' movements are stricter, but even now, as far as practicable, the Germans are allowed to manage their own affairs in the camp, and within its limits they have a fair amount of liberty.

A NATURALISATION QUESTION IN CHINA.

A JAPANESE PROTEST.

The Japanese Charge d'Affaires at Peking has lodged a protest with the Manchurian Government against the Chinese authorities in South Manchuria granting naturalisation to Koreans. The Japanese Government contend that since the annexation of Korea, all Koreans have, ipso facto, become Japanese subjects, and since the law of Japan prohibits Japanese naturalisation, changing their nationality, Koreans colonists in South Manchuria are legally disabled from becoming Chinese subjects. In these circumstances, it is pointed out that the attempt to grant Chinese nationality to Koreans is likely to complicate Sino-Japanese relations in Manchuria, because the Japanese authorities will continue to treat all such Koreans as subject to the jurisdiction of the Japanese consuls in South Manchuria. The Japanese Government will deal with this question by raising any temptation to argue it out in terms of legal technicality.

AIRMAN IN A HOLE.

DAY AND A HALF ON SNAILS AND DEW.

A French observer in an aeroplane which came down in the German lines on the Somme after an accident described in the *Peking Gazette* his adventures and rescue.

"We were about 8,000 ft. high between Beaumont and Fumilly when I heard a machine-gun, and some splinters flew off and struck the pilot's place. I pushed his body to one side and managed to get control of the machine again; then I noticed that the patrol tank was pierced. I had to come down as quickly as possible, and landed in the German lines. I saw French men and they were Germans. I had to get out of the machine as fast as I could, and I jumped over a low hedge and ran westward. I hid in a hole for half an hour, then I ran the telephone wires and waited. I then ran as far as the first houses of Fumilly and I had to wait for a while, when a French man came and I was rescued."

COUGHING INTO CONSUMPTION.

"Only a Cough," but you say it while it's ONLY a cough.

WATERBURY'S METABOLIZED COD LIVER OIL COMPOUND.

The finest preparation made for combating severe coughs. CURES any cough, but only a cough. Very palatable. OF ALL CHEMISTS.

Price:—\$1.25 and \$2.25.

WOMEN AND PAIN.

Few men realize that about one woman in four seldom passes a day without suffering actual pain. It is a hard task to endure as much pain but would stay at home and let his work take care of itself. But there is nobody to do the work of a wife and mother.

In nearly every case her suffering takes the form of backache and pains in the side and loins, with headache, breathlessness and a general sense of uneasiness. Men do not suffer thus, and do not realize how much it means to a woman. They have a healthy appetite. A woman often cares little whether she eats or not. Her blood is so poor and that it is a cruel deal with food, and therefore the stomach does not grow hungry.

But enrich the blood with the special blood builder Dr. Williams' Pink Pills, and watch how soon appetite will return. Notice how headaches and backaches disappear, and how the tired shoulders and loins will be braced up. Dr. Williams' Pink Pills for Pale People are a marvel for women, for they impart new energy and interest in life. Dealers sell them. Also obtainable post free, \$1.50 a bottle, \$3. for 6 bottles, from Dr. Williams' Medicine Co., 56 Sootham Road, Shanghai.

PRISONERS IN AUSTRALIA.

CAMP'S "BLACK HAND."

Every prisoner in Australia has been conscripted by the Commonwealth Government into one large camp at Liverpool, New South Wales, says a Melbourne message. There are now interned upon 5,000 Austrians and Germans, including persons drawn from every class of society and representing every shade of religious opinion and culture.

The Austrians' loss of opportunity of expressing their hatred for their Allies, the Germans, and so frequent and so desperate are the hatreds and rivalries amongst the Germans that a large force has to be kept to maintain order and prevent escapes. Within the last two or three months the censorship has been relaxed to an extent which has enabled the Australian public to know of the existence of a villainous gang of black-mailing Germans—a veritable "Black Hand"—which for some time battered upon the wealthier Germans in the camp.

Revelations at inquests held upon Germans who have been shot for attempting to escape or for numerous brutalities to fellow-prisoners have thrown a lurid light upon some of the lowest types amongst the Germans. The most fanatical enemies in the way of prosecution have been practised by this "Black Hand" upon some of its hopelessly victims. But now the gang had been broken up, and its members so separated that concerted action is, to say the least, unlikely during the remainder of the war.

If anything, the past treatment of the Germans by the Government has erred on the side of leniency, at any rate down to the discovery of the "Black Hand" and its attendant murderous cruelties upon Germans who took an honest view of their obligations, while within the camp.

To-day the regulations controlling the prisoners' movements are stricter, but even now, as far as practicable, the Germans are allowed to manage their own affairs in the camp, and within its limits they have a fair amount of liberty.

Immediate

Nutriment for Overworked, Underfed

Nerves and Brain

Within ten minutes you will feel distinctly the beginning

of the undoubted benefit that Sanaphos gives you. Yet it is

not to be confused with harmful stimulants, which only make

matters worse. It is not a stimulant, not a drug; it is an

energizing food, which almost instantly begins to give new

strength to your nerves and to your body.

Sanaphos

To restore your physical fitness—
to restore poise of the nerve system—
to repair the results of overwork—
to make a glass of Sanaphos on rising, mid-morning,
mid-afternoon, and on going to bed.

For Sleeplessness, Irritability, Depression, Derangement of Health, Anxieties, Giddiness, etc.

Thousands of Doctors, Nurses, and laymen testify to its superiority. Your own experience will prove that it does all that we say it does.

If your chemist has not Sanaphos write for a free sample, mentioning his name, and a trial package will be sent to you free and post-paid. Samples can be obtained from any of the following Wholesale Agents:—Harker & Co., Hong Kong; The Great Eastern Dispensary, Hong Kong.

Wholesale Distributors for India and the East: Dicks, Brothers, Ltd., Middlesex, Surrey, London, England.

THE REDEMPTION OF CHINESE NOTES.

LIANG SHIH YU, THREE THOUSAND NOTES.

A vernacular paper states that as the Government is arranging a date for the redemption of paper money by the Government Bank in Peking, Mr. Liang Shih Yu, who is now in Hongkong, has sent three trunks containing notes of the Bank of Communications consigned to one of his former followers at the Capital, for redemption. The value of the notes is estimated at several millions of dollars, which, when received, will be credited toward the credit of Liang Shih Yu. It is expressed that the export of such a large amount of silver will affect the market here and is suggested that unless the Government takes some measures to prevent it, a serious financial crisis may probably be occasioned—Peking Gazette.

NEWS OF THE DAY.

LOCAL AND GENERAL.

The fine weather favours the cinematograph show on the lawn of the Peak Club to-night.

A passenger on the Yau-mat ferry "Kung Wah" yesterday jumped overboard and was drowned. The body has not been recovered.

It is officially notified that the vessel sunk in the fairway at Taihek Barrier near Canton has been lifted and removed. The channel is now clear of obstruction.

A correspondent of the *N. C. Daily News* states that more than 200 people were eaten last year by tigers in the mountain ranges lying along the south-east of the Kwangsi river.

As a result of the "reorganisation" of the Ministry of Communications, nine out of ten American-trained Chinese graduates in Railway, Administration and Accounts who have been specially trained by Dr. Adams for their work in the Ministry during the past two years, have been summarily kicked out to put it crudely but accurately, says the *Peking Gazette*. Dr. C. C. Wang, who has been appointed Chief of the Postal Department, has declined the appointment.

A Shanghai paper mentions that a letter posted in Shanghai nearly three years ago has just been returned to the sender. We can go one better. A letter posted from Hongkong to Singapore nearly four years ago was returned to the sender this week. The fault in neither case rests with the Post Office. In both instances the letters were addressed to passengers travelling on N.Y.K. liners and have presumably been lying in the letter racks at the N.Y.K. offices ever since.

Mr. Frederic Coleman gave the first of his illustrated lectures on the war at the Victoria Theatre last night where he kept a large audience deeply interested for an hour and half. He gives a second lecture at the same place to-night, and to-morrow night he gives another illustrated lecture at Government House in aid of the War Charities Fund. We are asked to mention that evening dress is optional and that tickets will be procurable at the door as well as at Mottrie's. Mr. Coleman's fourth lecture is to be given at the Peak Club on Saturday night. All the lectures are different.

Mr. C. A. Asker, formerly of the Chinese Maritime Customs Service and now Commercial Attaché to the Swedish Legation, Petrograd, arrived in Shanghai last week in the course of an extended tour.

News has reached Shanghai that Second Lieut. G. H. Dalton, of the 3rd Battalion, Royal Irish Regiment, died on August 14. Mr. Dalton was 28 years old and was formerly with Messrs. Reiss & Co.

A distinguished visitor to Peking this year is the Rev. Dr. Coppin of Madison Square, New York, who is giving daily eloquent and powerful addresses on Christianity and the Social Order.

The engagement has been announced by Mr. and Mrs. Charles E. McWilliams, of their daughter, Leslie, to Lieutenant J. A. L. Zeno, U. S. Navy. Mr. McWilliams was formerly with the Pacific Mail S. S. Co. in Shanghai.

All the student interpreters, says an exchange, who began their service at the American Legation in Peking with the class of 1914 have passed their examinations and been assigned to duty at various Consulates. Mr. Ernest M. Price has been sent to Tientsin consulate, while Messrs. Samuel Sokoloff and Clarence J. Spiker were assigned to Shanghai and Mr. W. S. How has gone to the Hankow consulate. At present the American student interpreter corps consists of six members. Messrs. Andrew J. Brewer, Jay C. Huston and Eugene M. Lamb entered in 1915; and Messrs. Albert C. Chapin, John E. Nicholson, and Joseph E. Jacobs who began their service this year.

Mr. Kong Sing on behalf of a Chinese fined \$5,000 or in default 5 years' hard labour, applied for a rehearing this morning. The defence was that the accused was a substitute sailor and only went on board the steamer *Knight* (Japanese) on which the opium was found that day, and that he had nothing whatever to do with the drug. Mr. Hazeland ordered defendant's discharge.

CHINESE AFFAIRS.

(With Tis Fat Pa's Service.)

THE PREMIERSHIP.

PEKING, Aug. 23.
The election of Tuan Chi Jui as Premier has been confirmed by the State Council by 187 votes out of a total of 193.

THE CANTON SITUATION.

PEKING, Aug. 23.
A Bill introduced in Parliament by Yik Chi Kuo demanding an investigation into Lung Chai Kwong's conduct of affairs at Canton has been passed by the Tsan Yi Yuan (State Council).

Liang Chan Cho will introduce another Bill directed against Lung Chai Kwong's appointment to the direction of mining affairs in Kwangtung.

The Premier will take an early opportunity of replying to an interpellation in regard to affairs at Canton.

THE OPIUM SMUGGLING CASE AT SHANGHAI.

SHANGHAI, Aug. 23.
The trial in the Mixed Court of persons charged in connection with the recent smuggling of a large quantity of opium at Shanghai has been concluded. Three of the accused were convicted and sentenced to three, four and nine months' imprisonment respectively.

THE GOVERNMENT AND OPIUM.

PEKING, Aug. 23.
The Government intends dispatching Commissioners to Kansu, Kwangtung, Kwangsi, Szechuen and Yunnan provinces in connection with the suppression of the traffic in opium.

CANTON NEWS.

It is reported in the Chinese Press that Luk Wing Ting, the Governor-General designate, has sent telegrams to the Governor of Hongkong and the various Consuls at Canton announcing his appointment to the Tutorship of Canton, intimating that he arrived at Shui Hing on the 17th inst. and that he intends proceeding to Canton as soon as possible to take up the appointment.

On the 21st inst. the new Governor-General mounted force, numbering over 600, proceeded from Samshui by special trains to Fatsan where they are awaiting further instructions.

Some of the Peking telegrams we publish to-day relate to Canton affairs.

PARLIAMENTARY INQUIRY.

LIANG SHIH-YI AND HSU SHIH-YING.
A number of members of Parliament have submitted to the House for consideration a bill of inquiry. If the Bill is passed by Parliament, the Government will be required to give a satisfactory reply respecting the four items with which it deals. The first item deals with Liang Shih-yi. A demand is made that the accounts of the Bank of Communications should be carefully audited in order to ascertain the extent of Government obligations towards the Bank. It is pointed out that Liang was the money-lender of Yuan, and all payments made to him should be recognised as expenses incurred by the Government. A suggestion is made that steps should be taken to arrest Liang Shih-yi and to confiscate his properties. Respecting the payment of specie by the Bank of China, the statement is made that the telegraph offices, post offices, railways and other government organs should be compelled to accept paper currency in obedience to the Cabinet order No. 2.

Mr. Kong Sing on behalf of a Chinese fined \$5,000 or in default 5 years' hard labour, applied for a rehearing this morning. The defence was that the accused was a substitute sailor and only went on board the steamer *Knight* (Japanese) on which the opium was found that day, and that he had nothing whatever to do with the drug. 37. Yeh Hone Soo, St. John's Institute, Kuala Lumpur.
38. Chooching Wm. Loh, St. John's University, Shanghai.
39. Ang Ban Lee, Anglo-Chinese School, Penang.

A supplementary pass list of Singapore candidates will be issued later.

A TALK ON PIGS.
In Summary Jurisdiction the Cheong Shing firm of pig dealers 56, Jardine's Bazaar, sought to recover from Lam Fong a trader of Tung Street \$196.31 damages for wrongfully withholding from the plaintiff nine pigs; delivery, of their value, and \$20 for their detention.

Mr. Mattingley was for plaintiff and Mr. Faithful defended.

Plaintiff's story was that he employed the defendant as agent to buy pigs for him. Defendant was dismissed, but still acting as agent bought the pigs from two firms and plaintiff paid for them but did not get delivery of them. There had been some interrogatories in the matter and defendant admitted buying the pigs for plaintiff.

The defence was that defendant when he bought pigs sent them direct to the abattoir and that was all he knew about them.

The case stands adjourned.

CHOLERA IN JAPAN.
25 CASES REPORTED IN NAGASAKI.
A telegram from Nagasaki despatched on the 19th inst. to the "N. C. Daily News" states:—

There are 215 cases of cholera in Nagasaki at the present time, the spread of the disease averaging 30 cases daily. There have been 90 deaths, while isolated cases have occurred in neighbouring villages. Foreigners have not been attacked. The authorities are taking the utmost precautions to keep the situation in hand. Unzen is unaffected.

JAPANESE CAPTAIN TO MEET FRYATT'S FATE?
According to an official despatch received at the Foreign Office in Tokio the Japanese steamer *Kochia Maru*, 3,040 tons, was attacked and sunk by a German submarine at 31.48 degrees N. lat. and 150.56 degrees E. long. on the afternoon of the 2nd instant. Captain Wakasawa was taken prisoner by the Germans, while the crew were landed at Alexandria. The steamer seems to have been on her way from Elizeti to Port Said. The *Kochia Maru* was owned by a Kobe concern and was evidently chartered to a foreign firm when she was sunk. The detention of the captain would seem to suggest that he also is to be charged as a "franc tireur" with attempting to sink a submarine.

KEEP IT HANDY
IMMEDIATE relief is necessary in attacks of diarrhoea, Chamberlain's Colic, Cholera and Diarrhoea Remedy should always be on hand. For sale by all Chemists and Storekeepers.

ORDER OF ST. JOHN AND THE BRITISH RED CROSS SOCIETY.

AMBULANCE FLEET.
The following shows the strength of the Ambulance Fleet of the Joint Societies as on June 30th, 1915 and June 30th, 1916.

June 30th, 1915. June 30th, 1916.
Ambulances..... 745 1,089
Lorries..... 47 114
Repair Wagons..... 9 12
Scrap Bicycles..... 12 14
Bikes and Buses..... 11 14
Staff Cars..... 175 354
Motor Cycles..... 32 80
In Reserve..... 20 20
Total..... 1,029 2,113

This shows that the fleet has been more than doubled during the twelve months. It will be remembered that during the year two Motor Ambulances were presented from Hongkong: one by the "Ladies of Hongkong" the other by the Hon. Mr. Lau Chu-pak.

The outlay on purchase and up-keep during the same period has not been less than £200,000. This expenditure has been entirely met by contributions sent direct to the Transport of Wounded Fund, and without any grant from the General Fund.

KILLED OUT OF REVENGE.
Mr. Hazland this afternoon committed to trial on the capital charge an old man. It is alleged against him that he shot and stabbed a man to death at Ying Lung Wei, An Tau. Defendant, a village elder, told a pathetic story of a quarrel over a fence erected in front of a joss house. Defendant had raised objections to reducing the height of the fence and words led to blows. Accused was struck down and swore revenge. He waited two years and then killed his assailant. "I fired two shots at him," he told the Magistrate, "and then as I was not quite sure he was dead, I drew my knife and stabbed him."

KILLED AT THE FRONT.
THE REV. H. O. SPINK.
The news that has reached the Colony that the Rev. H. O. Spink, formerly vicar of St. Andrew's, Kowloon, has been killed at the front will be received with sincere regret by all who knew him. When the war broke out he was vicar of a Liverpool parish. He joined a Lancashire regiment as a private, but subsequently became its Chaplain. Mr. Spink during his three years at Kowloon, took special interest in the welfare of the boys of his parish, and it was he, who, we believe, started the Boy Scout movement in the Colony. Great sympathy will be felt by many friends in the Colony with the deceased gentleman's sister, who resided with him while he held the vicarage of St. Andrew's.

SHIPPING AGENTS AND CARGO.
An important point was raised before Mr. Ralph Scott in the district court, Singapore, this week in an action brought by Messrs. S. V. Pichey and Co., merchants, against Messrs. Paterson, Simons and Co., as agents for the N.Y.K. steamer "Fushimi Maru," in which they claimed \$322.25 damages for loss suffered to a consignment of straw hats. Mr. T. J. M. Greenfield represented plaintiffs and Mr. A. P. Robinson appeared for the defendants. There was a considerable conflict of testimony regarding the actual damage, but his honour held that the goods arrived in Singapore from London in a damaged condition and that as regarded the legal arguments of counsel he was of opinion that the bill of lading did not exempt the shipping company from liability for damages. He accordingly gave judgment for the full amount claimed, with costs, and agreeing with Mr. Greenfield that the point was of importance and had involved expense in legal research allowed a retainer according to scale.—"Straits Times."

THE HAPPY WARRIOR.
LEARNED FRENCHMAN'S DEATH.
Every schoolboy knows the story of the death of Wolfe at Quebec, when the dying general heard voices crying, "They run! They run!" "Who run?" asked Wolfe. "The enemy," said a bystander. "Then I die happy," said General Wolfe, and so died. A like incident in the French history of the present war is reported officially. An order of the day of the French army supplies details of the death of Joseph Dechelette, the famous author of the "Manual of Archaeology."

At the age of 53, though not of course required to serve in the Army, the great scholar chose to take his part in the war. He was a captain in the 29th Regiment of infantry; he was shot down while leading his company. With his men he lay down half a mile of ground. As he lay dying he asked his colonel whether they had kept the conquered ground, and being answered "Yes," he said, "I am happy that my death has been of service to France." Then he died.

GAILLARD AMONG NATIVE MEN.
It is now possible to hear Gaelic services at Chatham and Portsmouth. Many Highlanders are serving in the Navy that special arrangements have been made for their religious needs. Two Gaelic-speaking clergymen are stationed at each port, and the arrangements are most complete.

SCOTTISH LETTER.
(From Our Own Correspondent.)
EDINBURGH, July 19.
THE WAR AND SOCIAL QUESTIONS.
Dr. C. W. Saleeby, the well-known writer on sociological subjects, says some very uncomplimentary things about Scotland and Edinburgh in particular in an article in a London journal. According to him, the war is affecting us in a very pernicious manner. He compares the infant death-rate of Edinburgh and Paris very much to the disadvantage of Edinburgh. "The destruction of infants in prosperous Scotland last year," he observes, "was 126 per thousand, a higher figure than in 1915." Associated with increased mortality is a decreased birth-rate. Last year "the babies were slaughtered as usual, though the birth-rate was only half as high as before the war." He says that money allotted for mothers and infants in our country was utterly without precedent. Poverty practically did not exist. The explanation is suggested in a reference to bacchanalian days and nights, and there is a general allegation that "never have women drunk so much spirits in Scotland as they are drinking now, and never was such an appalling demonstration of the consequences of maternal alcoholism."

A reference to available statistics and consultation with officials and others who have a knowledge of the facts do not bear out these sweeping statements. There is a considerable increase in the average number of deaths of infants under one year; but this increase is common all over the country. With regard to the falling-off in the birth-rate, it only requires to be observed that, with large numbers of married men on active service, this was only to be expected. Further, there has been a falling-off in the number of illegitimate births. The wild rumours current a year ago have been entirely falsified. The illegitimate rate has not gone up, as prognosticated, but has actually gone down.

There does not seem to be any proof for the allegation that drink is responsible for an increased infant mortality in the poorer districts of the Scottish cities. That increased mortality is quite as great in better-class districts where no excessive drinking is suggested. There are other causes for the death-rate, anxiety for the safety of husbands on active service, being among them. It may be mentioned that after a recent air raid on one of the Scottish towns there were many cases of premature birth, and in every known instance the infant died. There was thus direct influence on the infant mortality rate quite apart from those mentioned by Dr. Saleeby.

One of the rumours—recklessly circulated since the war began—was that of general and excessive drinking among women workers. Inquiries recently made in Edinburgh to ascertain whether there was any foundation for this allegation produced no evidence whatever in its support. Any gossip about drinking on the part of women workers may be confidently treated as without foundation. New industrial occupations have, on the contrary, exercised a beneficial effect from a moral standpoint. On the other hand, there is no doubt of increased drinking on the part of some women. But these cases are practically confined to certain well-defined types who drank when opportunity offered before the war, and who now, finding themselves in the possession of a fuller income, can indulge more freely.

Dr. Saleeby pays us one compliment. The education obtainable in Edinburgh, he says, is the best and cheapest in the world. "Scotland is the only really educated part, and certainly the only part that really believes in education, of the British Isles. Nothing of our Empire or outside of it can stand against the best type of Scotch educated Scotsmen."

A FARMER FEELS.
The Earl of Crawford, the new President of the Board of Agriculture, is a strange mixture of qualities. He was a shy and almost bashful Chief Whip; has a taste for art, on which he has written with discrimination; and has few equals in the management of a large estate. The House of Commons will remember him, principally, as one of the best Whips the Unionists ever possessed. He was more than a match for Lord Murray (Elbank) and Mr. Hingworth, and had an uncanny skill in arranging for snuff divisions.

YIPERS AT THE FRONT.
Lord, Shaw of Dunfermline, in his capacity as President of the London Rifle Brigade Association, delivered an interesting speech, enlivened by some personal touches, to a party of wounded soldiers who were entertained by the Association at the Royal Cadonian School, Brixton. He, of course, emphasised the fact that the Commander-in-Chief, Sir Douglas Haig, is a Fifer. But he remarked that the county had the honour of producing many other distinguished soldiers, among them General Bethune. He mentioned incidentally that one of the "big guns" stationed near Albert had a personal interest for him. His son had been in its construction at home, and had been a gunner in some recent action in which it had distinguished itself. This gun had fired 100,000 rounds of metal twice the height of Ben Nevis, and found the mark.

ARE YOU GOING ON A JOURNEY?
Chamberlain's Colic, Cholera and Diarrhoea Remedy should be packed in your hand luggage when going on a journey. Change of water, diet, and temperature all tend to produce bowel trouble, and this medicine cannot be secured on board the train or steamer. It may save much suffering and inconvenience if you have it handy. For sale by all Chemists and Storekeepers.

THE WAR.

LATEST TELEGRAMS.

(Reuter's Service to the China Mail.)

THE WESTERN FRONT.

ENEMY SUFFER HEAVY LOSS IN COUNTER-ATTACKS.

LONDON, Aug. 23.
General Sir Douglas Haig reports: The enemy twice determinedly counter-attacked our new trenches south of Thiépval last night. The first obtained a temporary footing but was immediately driven out. The second was completely repulsed. The enemy suffered heavily both times.

STRAIGHTENING THE LINE AT THIÉPVAL.

LATER.
General Sir Douglas Haig reports: South of Thiépval the British have gained a further 400 yards and have straightened the line.

ENEMY ARTILLERY SILENCED.

We silenced in three different areas the enemy's artillery, which had been showing much activity.

DESTRUCTION ON ENEMY AIRCRAFT.

Enemy aircraft, which had showed unwonted enterprise, were engaged in large numbers with most satisfactory results. At least four were destroyed; others were driven down out of control, while others were pursued to their aerodromes.

FRENCH FRONT.

FIVE AEROPLANES BROUGHT DOWN.

There was a lively artillery duel north and south of Marcup but the enemy did not attack.
Five German aeroplanes were brought down.

A SMALL ENEMY SUCCESS ON FRENCH FRONT.

PARIS, Aug. 23.
A communiqué states: An enemy attack south of Etrepas and west of Soyecourt gained a footing at some points in the trenches captured by us on the 21st inst.

DEPRESSION IN THE GERMAN ARMY.

A STEADY STREAM OF DESERTERS.

LONDON, Aug. 23.
Reuter's Correspondent at Headquarters states that owing to a comparative shortage of reserves the German infantry is unquestionably very jaded. There never was a period when their counter-attacks had so systematically failed. After fifty days of the offensive we have nowhere retired. Captured letters show much depression, of which the steady stream of deserters is an even more significant indication.

ITALIAN PROGRESS.

LONDON, Aug. 23.
An Italian communiqué states: We carried strong enemy positions on the western slopes of Tolana and Tavannaz Valley.
The enemy suffered heavy losses.

THE TORPEDOED ENEMY BATTLESHIP.

WAS SHE SUNK?

AMSTERDAM, Aug. 23.
A semi-official statement published in Berlin admits that the battleship *Wesfalen*, which is of the *Nassau* class, was hit by a torpedo on the 19th inst., but says the damage can be repaired. It declares that the ship remained capable of manoeuvring and that the second torpedo missed.

THIRTY-FIVE ZEPPELINS ACCOUNTED FOR.

LONDON, Aug. 23.
In the House of Commons, Mr. J. L. Bird, C.M.G., D.S.O., representing the Air Board, mentioned that seven Zeppelins had been officially reported destroyed. Five others are believed to have been disabled irretrievably. The Allies altogether had accounted for thirty-five.

THE BALKAN THEATRE.

GREEK VOLUNTEERS ORGANISING.

SALONIKA, Aug. 23.
The calling out of the demobilised reserves at Serres, mentioned in a cable of the 22nd inst., was the act of the gallant commander, Colonel Christodoulou, who is stoutly resisting the advancing Bulgars. Volunteers are being organised at Salonika to proceed to his support.

FIGHTING BY FRENCH AND SERBIANS.

LATER.
Fighting continues on the Serbian front. All Bulgarian attacks have been repulsed and the Serbians continue to progress north of Strupino. The bombardment of Doiran and the slopes of Veleo continues. General Sarraill, the Commander-in-Chief, has warmly praised the British infantry and artillery.

SAFONIKA, Aug. 23.

A communiqué states that an enemy attack on the French holding the Komarjan ridge has been repulsed. Two battalions of the enemy were seen in the neighbourhood of Dauli on the Doiran front. We drove in their advanced troops. The enemy is entrenching on the Struma front. The Serbians are now holding the line in the neighbourhood of Lake Ostrovo and Pozar.

THE RUSSIAN FRONT.

ENEMY OFFENSIVE EVERYWHERE REPULSED.

PETROGRAD, Aug. 23.
A Russian official announcement states: We have everywhere repulsed the enemy offensive. South of Brody we captured two heights north and south of Kovel and a mountain on the Hungarian frontier near the source of the Pruth. The Turkish offensive on the Caucasus front near the coast was driven back and our offensive west of Lake Van is proceeding.

RUSSIAN ADVOCATE OF A SEPARATE PEACE.

A CRITICISM OF MR. ASQUITH'S DECLARATION.

PETROGRAD, Aug. 23.
The Russian Government is being urged to prosecute the leader of the Extreme Right, M. Balatzev, who, regarding Mr. Asquith's declaration re the punishment of those responsible for international crimes as being directed against the Kaiser, wrote an article scurrilously distorting Great Britain as planning a tribunal such as sentenced to death Mary Queen of Scots and Joan of Arc. The British Army, he says, has advanced a few hundred yards in two years. The task of taking the Kaiser prisoner is presumably imposed on Russia. The war will not end when Russia is able to enclose an honourable peace, but when Russia has laid low the Hohenzollern dynasty. M. Balatzev practically advocated a separate Russo-German peace.

THE BRITISH PARLIAMENT BILL.

LONDON, Aug. 23.
The House of Commons has accepted the amendment of the House of Lords to the Parliament Bill limiting to two years any Parliament elected on the old register.

BRITISH PARLIAMENT ADJOURNS.

LONDON, July 23.
Parliament has adjourned.

A MASTER REMEDY.

CHAMBERLAIN'S Colic, Cholera and Diarrhoea Remedy is master over cramp colic, dysentery, and all intestinal pains. One dose relieves, a second dose is rarely necessary, to effect a cure. For sale by all Chemists and Storekeepers.

EARLIER TELEGRAMS.

THE WESTERN FRONT.

ALLIES MAINTAIN THEIR GAINS.

LONDON, Aug. 22.
Reuter's correspondent at Headquarters writes: We are everywhere maintaining our gains, despite heavy bombardments and counterattacks. This is most satisfactory considering the difficulties of consolidating the exposed heights. The tactical successes at the week-end were even greater than at first reported. We are not only pressing the enemy back, but we are gradually mastering the gun positions, which will result in a further withdrawal of the German batteries to save them from destruction.

THE RUSSIAN FRONT.

GERMANS ANXIOUS FOR THEIR LEFT WING.

PETROGRAD, Aug. 22.
Although the fighting on the Lower Stokhod continues heavy, artillery experts do not anticipate a great extension southward of Tripet, owing to the marshy nature of the country. Nevertheless the German attacks reveal anxiety for their left wing. The Russians in the wooded Carpathians are ready to cope with an Austrian advance from Transylvania. Despite the arrival of German reinforcements, the Russians operating in the direction of Farnasoziget have reached the source of the Tisza.

THE BALKAN THEATRE.

MOTIVE BEHIND THE BULGARIAN OFFENSIVE.

SALONIKA, Aug. 22.
The Bulgarian attack was intended to restore the moral of the Bulgarian army, and to pave the way for the intervention of Rumania. The Bulgarian occupation of Florina is absolutely unimportant, as the heights dominating the town are securely held by the Allies.

BRITISH COMMANDING OFFICERS "TRANSFERRED."

LONDON, Aug. 23.
In the House of Lords, Lord Islington, replying to Lord Peel, said that General Shaw had been transferred from his command at Aden because the Raj was dissatisfied with his conduct of responsible duties. He was removed from his command at Karachi because of his share in the responsibility for the troops' train disaster. General Aylmer had been transferred from his appointment in Mesopotamia on military grounds. He was no longer young, the climate was peculiar, and the rigour of the campaign made the post one of special difficulty for him. Mr. Chamberlain had been in correspondence with the Raj, and was confident that the officers removed from their posts would not be appointed to new posts where there was risk of a repetition of their previous failures.

GREAT BRITAIN'S WAR PRISONERS.

LONDON, Aug. 22.
Mr. Lloyd George has stated that we have now 23,142 able-bodied war prisoners in the United Kingdom and France.

STATUE OF LORD ROBERTS UNVEILED AT GLASGOW.

MUTINY VETERANS PRESENT.

LONDON, Aug. 22.
In a speech at the unveiling by Lady Roberts of a statue of Lord Roberts at Kelvin Grove Park, Glasgow, Viscount Grey related how two nights before he died, Lord Roberts insisted on participating in a midnight conference at Headquarters in France. He followed the proceedings with the keenest interest, and although he did not retire until the early small hours, he rose in the morning to join his old Indian comrades. General Sir Douglas Haig wrote, "In the present determined attitude of the people of Europe, we are reaping the benefits of Lord Roberts' labours to awake his countrymen to the vital necessity of preparing for national defence." The statue is a replica of that in the Maidan at Calcutta. Lord Derby and Lord Lamington were present, while over a hundred veterans who were with Lord Roberts at the Mutiny and other campaigns were drawn up in front of the statue.

THE MESOPOTAMIA ENQUIRY.

LONDON, Aug. 22.
It is officially stated that the Mesopotamia Commission has concluded the hearing of the evidence of General Sir Edmund Barton, who gave a general survey of the history of the expedition. The Commission adjourned for a fortnight in order to master a number of documents, prior to taking up the medical side of the enquiry.

SEE THING CHILDREN.

"Seeing" children have more of less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the recommended dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Even the most severe and dangerous cases are quickly cured by it. For sale by all Chemists and Storekeepers.

MASSACRES OF ARMENIANS.

AMERICAN PROTEST TO THE PORTE.

WASHINGTON, Aug. 23.
The State Department has instructed the American Embassy at Constantinople to make representations to the Porte in the name of humanity that it does not permit a massacre of Armenians in Persia like that in Asia Minor.

NEW ZEALAND'S WAR LOAN.

WELLINGTON, Aug. 22.
The £8,000,000 Loan has been oversubscribed.

THE CABINET NOT TO BE CINEMATOPHAGED.

LONDON, Aug. 22.
The abandonment of the proposal that the Cabinet should be cinematographed and the proceeds devoted to charity has been announced by Mr. Asquith in the House of Commons.

THE GOVERNMENT OF INDIA.

LONDON, Aug. 22.
The House of Lords has agreed to the Commons' amendments to the Government of India Amendment Bill.

AMERICAN CABLES.

[FROM THE MANILA "CARLENSKY"]

SPURIOUS MONEY.

New York, Aug. 17.
By the vigilance of federal secret service agents a plot to place \$2,000,000 worth of spurious money into circulation in the United States has been balked. Detectives yesterday raided a counterfeit den on Staten Island, making a number of arrests and seizing tools which had been employed in the manufacture of the counterfeit money and \$2,000,000 in notes ready to be distributed to the agents of the gang for circulation.

THE THREATENED RAILWAY STRIKE.

PRESIDENT WILSON'S EFFORTS TO AVERT IT.

WASHINGTON, August 18.
President Wilson has made a personal appeal to the financial interests behind the leading railroads of the United States in an effort to secure their assistance in averting the threatened strike of the 400,000 railroad employees. This is regarded as President Wilson's last effort. The representatives of the various brotherhoods who met in conference with President Wilson support the railroad officials in their stand against the demand for an eight-hour day made by the men. The entire hitch in the proceedings is now over the question of the increased pay sought by the men. President Wilson has submitted his plan for a settlement of the question and the situation is regarded much brighter, there being some prospect of an agreement being reached.

A COURT'S CONSCIENCE.

SOUGHT REFUGE IN ENGLAND.

The efforts of a Hungarian Count to avoid military service in two countries were described at the Honiton Tribunal when Francis Augustus Charles Irvin Botham, of the Park, Gilders Green, asked for exemption on conscientious grounds.

Appellant said he objected to military service on the ground that all human life was sacred, and that the taking of human life and every form of violence, was fundamentally wrong in whatever service. When he became liable under the law of Hungary to military service he refused to join the colours, and expressed his readiness to serve any term of imprisonment which would result from that refusal.

But his family, wishing to avoid the scandal of his going to prison, procured without his knowledge a medical certificate that he was not fit to manage his own affairs. To avoid military service he came to England in 1904, as this was the only country in Europe which had no compulsory military service. He was naturalised in 1912. He would be willing to do any useful work of national importance, as long as it did not serve any military purpose.

The tribunal granted exemption on condition that appellant found agricultural work within 21 days.

HOME FROM THE BALTIC.

ESCAPING VESSELS NOT REQUISITIONED.

It is understood that the Government has undertaken that British steamers which successfully make the voyage from the Baltic ports shall not be requisitioned on arrival in this country. This, of course, as the Times points out, is a considerable inducement for owners to give instructions to their captains to make the passage. The bulls have been accepted for insurance by the State Office at low rates, but owners have been effecting additional amounts in the open market. For the voyage from ports high up in the Baltic to this country an inclusive rate of 21 guineas per cent has been quoted by underwriters, or 20 guineas for the voyage to Gothenburg and three guineas for the passage along the coast and across the North Sea. The latter rate allows for the risk of German capture is light.

Tan Goy, the owner of 100 tons of opium found in Ceylon last month, on the steamer *Borneo*, has been found guilty of violation of the prohibited drug act and sentenced to imprisonment for five years. *Cass Lark* and *Lim Uy*, two Chinese, were sentenced to six months' imprisonment and a fine of £500.

ACCUSATIONS OF WANTON MASSACRE.

THE SOCIETY OF SUFFERING FRIENDS.

The following translation from the Chinese Press is made by the "N.C. Daily News":

The Society of Suffering Friends was recently promoted at Feking by several eminent and newly-liberated prisoners. It is well-known that the Martial Court in Peking alone was responsible for killing many hundreds of lives, and when the many executions of the so-called rebels in the provinces are taken into consideration, the lives wantonly massacred by the monarchists must have reached tens of thousands in number.

In order to prevent retribution, the archives at the Martial Court in Peking have been purposely burnt; and the few records left show that the names of the persons put to death have been so altered or mutilated that they cannot be used as evidence. In some instances, families or friends have tried hard but failed to trace the places where the coffins of these martyrs were buried. Accordingly, this Society is established with two principal objects, namely: (1) to make a united effort to save those prisoners who have not yet regained their freedom, and (2) to publish obituary notes of the patriots who have given their lives to the Republican cause.

In detailing how Government detectives during Yuan's regime used to lay different kinds of "traps" to "catch" the revolutionists who took refuge in foreign settlements, so as to ensure their extradition, it is interesting to note that the most useful trick they played in Shanghai was "the pretentious establishment of a manufactory of forged bank-notes." There were numbers of such places with every detail perfectly thought out.

Then the detectives went about to catch their "birds" by feigning sympathy with the revolutionary cause, while the revolutionists, mostly enthusiastic men, easily fell a prey to the detectives. In common courtesy, the visits paid had to be returned. The Police were informed that certain "forgery of notes" was being worked at such a place by such a person or persons. The rest is easily imagined, for who could have escaped with such a complete set of incriminating evidence against him and he was seen to enter the house!

The members of the Society have already paid mournful homage to the departed spirits of their friends at the execution ground of the Martial Court outside the Mingchumen of Peking. They will compile a biography of the deceased to be called "The Records of Our Suffering Comrades." They will investigate and find out their burial places, and if some may be missing, they will purchase a site as their common burial ground, at which a memorial stone tablet bearing their names shall be erected to perpetuate their memory. They will also erect a temple of worship for them.

The Martial Court which is now a vacant house and which, owing to its sinister aspect, has found no tenant yet, is offered as a free gift by Mr. Yuan Kailan, ex-Paymaster-General, of the Model Brigade of Yuan Shih-kai. "Naturally," the society feels averse to accepting this gift, and is suspicious of the giver's motive.

GERMAN OUTRAGES IN THE BALTIC.

SWEDISH ANGER.

A Petrograd Telegraphic Agency telegram from Stockholm dated 7th August, reports that a German submarine has sunk the Swedish steamer *Vera*, laden with a cargo of timber. It is confirmed that the Swedish steamer, *Propeller*, was sunk by the Germans. The Swedish steamer *Tenis*, which was seized by the Germans, was never released in the country. In order to bring it before the Prize Court, but the Swedish Government forbade the *Tenis* to leave the Swedish waters and the crew, with the exception of two Germans, left the ship. For three days negotiations have been proceeding between the Swedish and German Governments with the result that a treaty has been concluded whereby Sweden is given the right to export timber in return for the removal of the prohibition of the export of horses from Sweden. A message from Gundiakel states that a Swedish trading vessel laden with wood was sunk near Gundiakel promontory. The sinking of this steamer has caused general indignation as it carried no contraband. A message from Regerung states that a German submarine sank the Swedish steamer *Gundiakel*, bound for Rangoon, after the mail had been taken off. In addition to this the Swedish steamers *Broekar* and *Vermland* and the Finnish steamers *Pertane* and *Stein* have been sunk by the Germans. The Swedish Steamship Company has ceased all sailings to Rangoon in consequence of the "unwarranted" sinking of Swedish mail steamers by the Germans. The Swedish press shows growing indignation. The Stockholm *Tidnings* describes Germany's treatment of mail packets as merciless, remarking that when the British seize German mail packets they at least return them back, but the Germans simply sink valuable parcels, which are lost forever.

CARELESSNESS THE TROUBLE.

The root of the whole trouble is that people are culpably careless. Instead of taking the trouble to hunt up a competent translator, the head of the firm, who is likely as not to know no Chinese, calls in the comrade, who is uneducated. The matter is explained to the comrade in pidgin-English, the comrade goes off and "tells" the "writer" about it, and the "writer" writes to write it. Between the three something is fixed up that gets into print but just what it is no one bothers to inquire. Much of the trouble comes from giving translation work to students of others who have an imperfect knowledge of English, and who, not knowing the real or intended meaning of a word, hunt it up in the dictionary and use the first character that comes before any character that sounds nice. Accuracy is thus sacrificed for high-sounding phrases, and the printed announcement carries a totally different meaning from that intended. Important translation work should always be done by one with a thorough knowledge of both English and Chinese. The first translation should then be polished and rounded off by "Howard" if necessary, by a Chinese scholar, who preferably does not know a word of English. Then it should come back to the translator, who should examine it carefully to see that the polishing process did not mar the meaning. And the final result should be checked by a disinterested foreigner with a knowledge of Chinese, should the services of such a man be available.

An Unhygienic Mouth

is a standing menace to health

PYORRHOCIDE POWDER

promotes oral hygiene by correcting many conditions of an incipient pyorrhoeal nature. It is modified with Dettol thus establishing its value in the treatment of soft bleeding, spongy gums. PYORRHOCIDE retards the accumulation of salivary calculus, one of the principal causes of

PYORRHEA (Riggs' Disease)

Correct and prevent pyorrhoeal conditions by using PYORRHOCIDE regularly every day as a dentifrice. PYORRHOCIDE is a tooth and mouth cleanser of high efficiency and is soothing and healing to the oral tissues.

ADVERTISING IN CHINESE.

HOW BRITISH FIRMS ARE DECEIVED.

SOME RIDICULOUS TRANSLATIONS.

In the course of a special article in the N.C. Daily News on this subject the writer says:

The manufacturers of a certain nutritious commodity known all over the world began advertising on a large scale in China not so long ago. The introduction to a certain booklet which they circulated widely told of the nutritious value of the article, mentioned its delicious flavour, etc., and wound up by calling it "sweet food." "Sweetness" was intended, but the translator, not knowing the word looked up "sweet" and "meat" in the dictionary. There are many foreign names of things having no Chinese equivalent for the reason that such things never existed in the country. In such cases the translator, instead of going to the trouble of inventing an entirely new character, often makes a phonetic rendering and lets it go at that. Thus "co-co" may mean "robbers," and "chocolate" may appear in print with the character for "chocolate," until someone takes the trouble to correct it. In such manner a machinery bome advertised as engine to be "half firm" (i.e. half strong; consequently a weak engine) when they intended to describe it as "semi-stationary."

RABIES AT SHANGHAI.

A PACK OF HOUNDS DESTROYED.

The Medical Officer of Shanghai in his report for the month of July says: Thirty-seven cases of bites inflicted by dogs were attended to at the Health Office during the month, and in five instances the dogs were found to be rabid. Thirteen victims of these animals underwent the Pasteur treatment making a total of just fifty so treated this year, all of whom, as far as is known, have escaped Hydrophobia. An unfortunate incident occurred during the month to the pack of hounds, one of which must have been bitten by some stray rabid animal, as it developed rabies, and, running amok amongst the rest of the pack, inflicted some injury on these that the whole pack had to be destroyed.

HONGKONG TIDES.

The tide-table given below has been
compiled at the National Almanac Office
in London from the result of the analysis
of observations taken by means of an
automatic tide-recording machine in the
Water Police Basin at Tsim Sha Tsui
during the years 1887-8-9.

The zero of the table corresponds with
the zero of the sounding in the Admiralty
Chart, which has been found to be 4 feet
2 inches below mean sea level.

To obtain the depth of water on the
tide gauge at the Victoria Naval Yard
add 3 feet 4 inches, and on the gauge
at Lamat Dock, Aberdeen, add 10 feet
6 inches to the height given in the table.

August 25th to 31st, 1916.
